PROFESSIONAL SUMMARY

Computer Science and Engineering student seeking an entry-level technology opportunity. Strong foundation in software development concepts, data validation, SQL, Python, Java, databases, and analytical problem-solving. Detail-oriented, methodical, adaptable, and quick to learn with strong communication and teamwork skills.

TECHNICAL SKILLS

Programming: Java, Python

Database & SQL: MySQL, SQL queries, SELECT, WHERE, filtering, sorting, aggregation, joins, data retrieval

Data & Reporting: Microsoft Excel, Power BI, data validation, reporting, data visualization

Development Tools: Git, GitHub, Visual Studio Code, MS Word, MS PowerPoint

Web Technologies: HTML5, CSS3, JavaScript

Computer Science: Data Structures, Operating Systems, Computer Networks

EDUCATION

B.Tech – Computer Science and Engineering | Ramireddy Subba Reddy Engineering College (Autonomous), JNTUA | 2023–2027 | 78%

Intermediate – MPC | Sri Vinayak Junior College, Rapur | 2022–2023

SSC | MIAPBCWSRIES School (Boys), Dovravari Satram | 2019–2020

INTERNSHIP EXPERIENCE

Data Analyst Intern – ElevanceSkills | 21 Aug 2026 – 21 Feb 2027 | 6 Months

- Worked on hands-on data analytics tasks and real-time project work.
- Completed practical assignments and structured data workflows.
- Applied analytical and problem-solving skills to business data.
- Worked with data preparation, validation, analysis, and reporting activities.

Data Analyst Intern – CodeOrbit Tech | 24 Aug 2026 – 23 Oct 2026 | 2 Months | Batch IND1

- Completed assignment-driven data analytics projects and practical tasks.
- Applied data analysis concepts to datasets and business problems.
- Worked with structured data and analytical workflows.
- Prepared and interpreted data to support reporting and insights.

Data Analyst Intern – CodeVedX

- Worked on practical data analytics tasks involving data cleaning, preprocessing, analysis, visualization, Python, and EDA.
- Prepared datasets and presented analytical results; applied data validation and transformation techniques.

Computer Science and Data Engineering Intern – SkillDize

- Worked with data preprocessing, data cleaning, and basic data analysis techniques.
- Gained exposure to data engineering workflows, database concepts, data handling, and structured data processing.
- Developed an understanding of machine learning fundamentals.

PROJECTS

CodeOrbit – Data Cleaning | Python — Cleaned and preprocessed datasets; handled data quality issues and transformations; prepared structured datasets for analysis.

CodeOrbit – Sales Analysis | Python — Analyzed sales datasets, trends, and business insights using Python and exploratory data analysis techniques.

CodeOrbit – SQL Business Insights | SQL, MySQL — Used filtering, sorting, aggregation, and joins to generate business insights from structured datasets.

CodeOrbit – Sales Dashboard | Power BI — Built an interactive sales dashboard with KPIs and visualizations for reporting and business insights.

Superstore SQL Analysis | SQL, MySQL — Analyzed sales, profit, customer, and product data using SQL queries.

Superstore Sales Dashboard | Power BI — Developed a dashboard covering sales, profit, orders, customer trends, KPIs, and insights.

Google Play Store Data Analytics | Python — Performed EDA on ratings, categories, reviews, and application attributes; identified patterns and analytical insights.

CERTIFICATIONS

Data Analytics Course – SkillForge | Certificate of Completion | 23 Aug 2026

CodeOrbit Tech – Data Analyst Internship Certificate | ElevanceSkills – Data Analyst Internship Certificate

CodeVedX – Data Analyst Internship Certificate | SkillDize – Machine Learning Internship

NPTEL – Full Stack Development | Wadhvani Foundation Certification

APSSDC–Siemens – Quantum Fundamentals Project Skill Certificate

KEY STRENGTHS & LANGUAGES

Analytical Thinking | Problem Solving | Attention to Detail | Communication | Teamwork | Time Management | Adaptability | Quick Learning
